

PRECISION TECHNIC DEFENCE

**YOUR SUPPLIER OF COMPLEX, CUSTOMISED
DEFENCE SOLUTIONS**

PROTECTING PEOPLE AND SOCIETY

YOUR SUPPLIER OF COMPLEX, CUSTOMISED SOLUTIONS

Precision Technic Defence Group is a global leader in advanced defence solutions aimed at ensuring safe and stable societies and safeguarding people and communities from military threats, natural disasters, accidents, or acts of terrorism.

Precision Technic Defence Group offers a unique range of solutions from a vast number of distinct partners worldwide and has extensive experience in matching technologies and interoperability requirements for a full range of integrated solutions.

CUSTOMERS

We are a trusted, long-term supplier and partner of choice for nations, governments, armed forces, national security agencies, and law enforcement around the globe, relying on us to deliver tactical superiority, enhanced performance and superior protection to their servicemen and women.

ALL-IN-ONE-SOLUTION

Our all-in-one solution spans five essential domains, all working to enhance the operational efficiency of your business. These encompass Partner Management, Business Development, Sales and Distribution, Supply Chain Management, and Service and Support.

With our all-in-one solution our aim is to optimise your business operations, streamline processes, increase efficiency, and empower your business or project for success. We ensure that every facet of our all-in-one solution collaborates seamlessly, considering all pertinent aspects for your business' benefit.

STAKEHOLDER BRIDGING

- We bridge the gap between developers and end-users, aligning our solutions with your needs.
- We grant you access to a network of experts, technical resources, and high-end products.
- Through end-user feedback, we facilitate product improvements to your benefit.
- Cooperating closely with partners keeps us at the forefront of technology.

SERVICE & SUPPORT

- We offer local service and support.
- Our skilled service teams ensure maintenance in accordance with manufacturer standards.
- Local service reduces downtime and is cost-effective compared to shipping products overseas for repairs.
- Local service reduces your environmental footprint.

SOLUTION DEVELOPMENT

- We optimise your operational efficiency through the development of customised solutions.
- We actively share your feedback with our partners to facilitate product development.
- We offer recommendations that contribute to the development of your business.
- Our sustainability focus promotes the sustainable development of your business.

SUPPLY CHAIN MANAGEMENT

PROCUREMENT

SUPPLY CHAIN MANAGEMENT

- We handle the entire supply chain, guaranteeing optimised operations.
- Our American subsidiary handles critical components of your supply chain, including logistics, export compliance, sales and distribution.
- We ensure product availability - when and where you need it.
- We enable our partners to focus on what they do best: developing the best possible solutions.

PROCUREMENT

- Together with our partners, we tailor solutions that meet your specific requirements.
- Versatile sales approaches provide flexible pathways to address your requests.
- Strategic operations in various countries ensures proximity to customers worldwide.
- Local presence facilitates direct product demonstrations, easing your decision-making process.

OUR SOLUTIONS

SOLDIER SYSTEMS

We specialise in delivering individual products or interoperable solutions for air, sea and land operations. Our products and solutions ensure enhanced safety, superior interoperability, and increased operational effectiveness for soldiers and units in any theatre, meeting the demands of even the most challenging environments and missions.

PLATFORM & SENSOR SYSTEMS

We offer unparalleled capabilities to support joint combined operations. Our expertise spans a wide range of areas, including air, sea, and land platform sensors and communication systems, weapons, and ammunition ensuring comprehensive support for diverse missions and operations.

UNMANNED SYSTEMS

We are able to deliver comprehensive and fully integrated solutions across our product areas Warrior Systems and Platform and Sensor Systems. Our expertise extends to seamlessly managing integration for both existing and new systems, guaranteeing an efficient experience that yields tactical, operational, and strategic excellence.

C4ISR SYSTEMS

We deliver advanced C4ISR technology and systems that support and optimise military operations and national security efforts. Our team of military professionals offers experience-based consulting to guarantee that you receive the optimal solution for your specific requirements.

SERVICE & SUPPORT

Our service and support teams offer skilled technical know-how and expertise and can service an extensive range of products and systems in strict accordance with the manufacturer's standards and requirements. Local service and support offer numerous advantages for you as our customer. Primarily, it significantly reduces down-time compared to shipping products overseas for repairs. This translates to cost savings, as there is no need to invest in extra equipment to cover extended repair periods, making local servicing an economically efficient solution.

TRAINING SERVICES

SOLUTION-SPECIFIC TRAINING

At Precision Technic Defence Group, we firmly believe that training and support are essential for the effective deployment of any solution in the field. Consequently, we are committed to deliver high-quality training and application support for all our solutions. Our aim is to empower our end-users, arming them with the skills and knowledge needed to maximise the potential of our cutting-edge solutions, and equipping them with the expertise required to excel in any operational situation and environment.

GENERAL TRAINING

Through close collaboration with our partners, Precision Technic Defence Group provides an extensive range of specialised training courses. Our training programmes cover a diverse range of topics, from tactical operations to strategic planning, and are continuously updated to align with recent developments and security challenges. Our overall goal is to equip our customers and end-users with the skills and knowledge needed to excel in various operational scenarios – in peace as well as during military conflicts

SUSTAINABILITY IS AT THE CORE OF OUR STRATEGY

We firmly believe that freedom and safety form the foundation for a sustainable world – and vice versa – and sustainability is therefore an integral part of our corporate strategy.

The United Nations’ Sustainable Development Goals embodies a vital global mission to combat poverty, protect the environment, and promote universal prosperity. The global goals encompass a broad spectrum of critical issues, including access to clean water and affordable energy, hunger eradication, gender equality, and the establishment of sustainable communities.

Founded in the UN goals, Precision Technic Defence Group has defined five key focus areas that guide our sustainability efforts. Our five key focus areas are:

- **Climate**
- **Social responsibility and workers’ welfare**
- **Human rights**
- **Economic sustainability**
- **Anti-bribery**

OUR CLIMATE EFFORTS

Climate preservation and environmental footprint serve as evaluation criteria for all new products, solutions, and procedures. Our emphasis on reducing our environmental impact makes Precision Technic Defence Group a proactive partner, dedicated to assisting you and your organisation in achieving your sustainability objectives.

REPAIR, REUSE & RECYCLE

We believe that repair, reuse, and recycling play pivotal roles in fostering a green transition and shaping a more sustainable future. In line with this belief, we provide comprehensive repair and maintenance services on a wide range of products.

With our repair and maintenance services our aim is not only to ensure optimal functionality and safety but also to extend the lifespan your products, keeping them in service for as long as possible. For you, a longer product lifespan means a better return on investment. From an environmental point of view, it means less waste and a more responsible use of resources.

WE CARE ABOUT PEOPLE

We are committed to ensuring a healthy and safe workspace for all our employees and to contributing positively to the communities in which we operate. We are committed to creating local jobs and ensuring equal rights and decent work conditions for all members of our team.
